

# To be successful in this Biology course, you must:

1. Realize that this is a fast-paced course, and therefore have excellent attendance.
2. Be an active and engaged learner. Pay attention and ask questions when you don't understand something.
3. Be prepared for class... have your 3-ring binder/notebook, agenda, pencil/pen, completed homework ... when entering the class.
4. Carefully follow all directions, written or verbal, for homework, projects, labs, tests, etc.
5. Study outside of class.
6. Read your textbook and when needed, seek out additional resources to help you understand the material.
7. Make certain that all assignments, labs, projects, and reports are completed on time.
8. Schedule tests & labs to be made up after school when returning from an absence.
9. Keep track of your grade on PowerSchool.
10. Review lecture notes, vocabulary terms, & graphic organizers every night.
11. Be organized.
12. Come in before school or after school for extra help when needed.
